THE STORY BEHIND SUPER PATCH

It Began With A Personal Struggle

Super Patch's mission is simple: to improve lives through unique, innovative, drug-free wellness solutions. The company's origins and its journey are personal. It began over 15 years ago when Jay Dhaliwal sought alternatives to traditional medicine for his mother, who was dealing with debilitating health issues. Conventional treatments weren't providing relief, and driven by hope, Jay researched and discovered the power

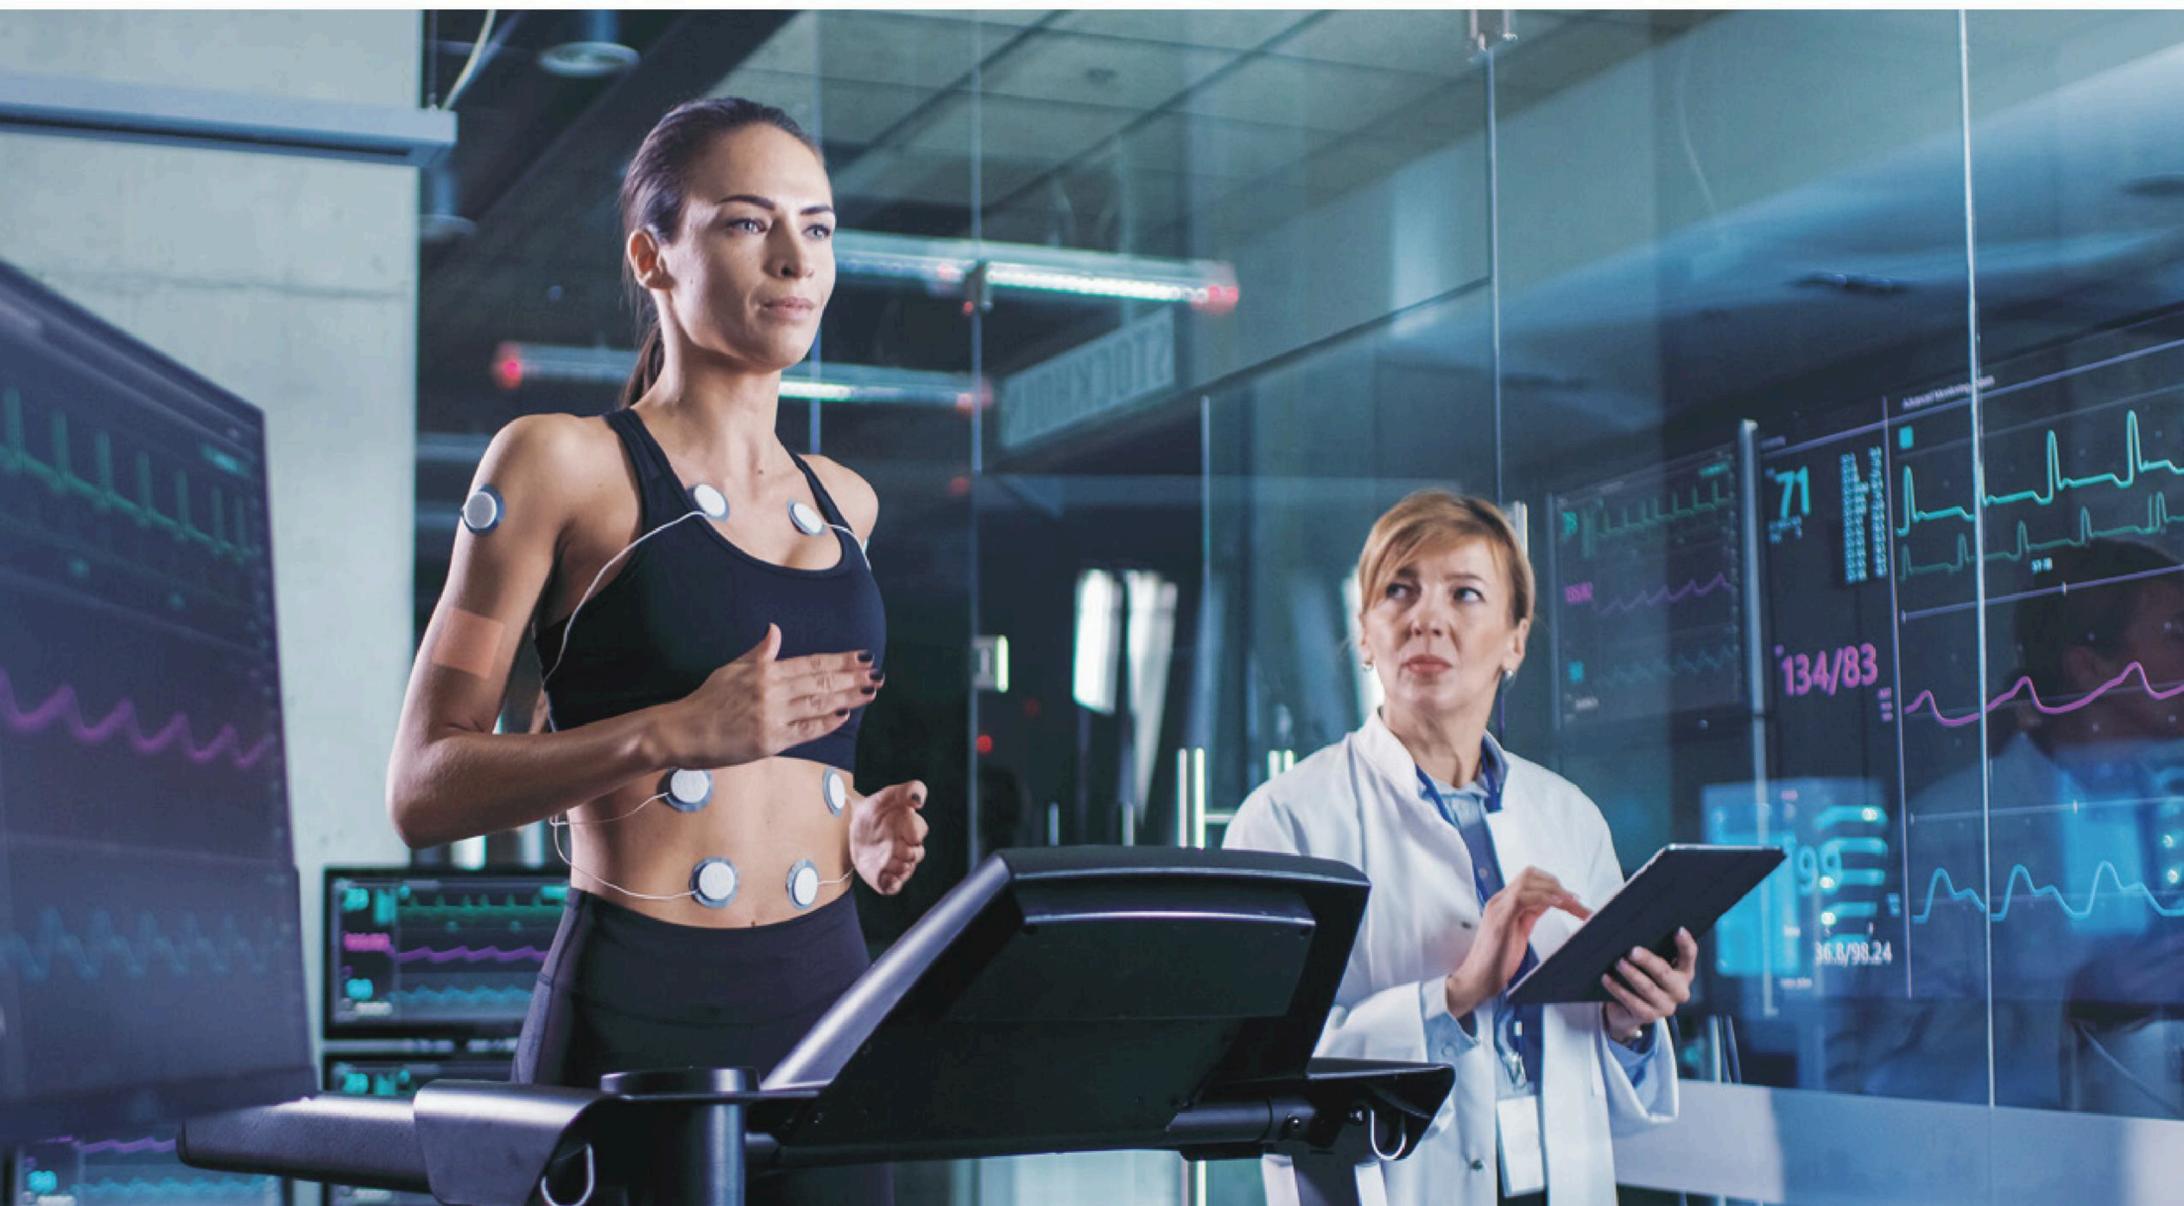

of neurostimulation—the mind-to-body connection that activates our natural ability to self-heal.

This breakthrough inspired him to create Super Patch, expanding his vision to offer the world simple, effective solutions that unlock our natural potential—health, wellness, and performance—all harnessed into a wearable patch.

INNOVATING WELLNESS, ONE PATCH AT A TIME.

Super Patch is science-driven and focused on designing all-natural, drug-free solutions that increase energy, help with pain relief, better sleep, athletic performance and recovery, and more.

The company principles are simple:

- **Drug-free Wellness** - Solutions that empower people to live better by making wellness accessible, effective, and 100% natural.
- **Integrity First** - Do not make casual promises. Back up everything with clinical research.
- **Always Innovate** - Lead in neural technology. Do what no one else is doing. Be the only company of its kind in the world.
- **Make An Impact** - Help people of almost any age - from 8 years old and up - and from elite athletes to the folks who want to enjoy a walk in the park.

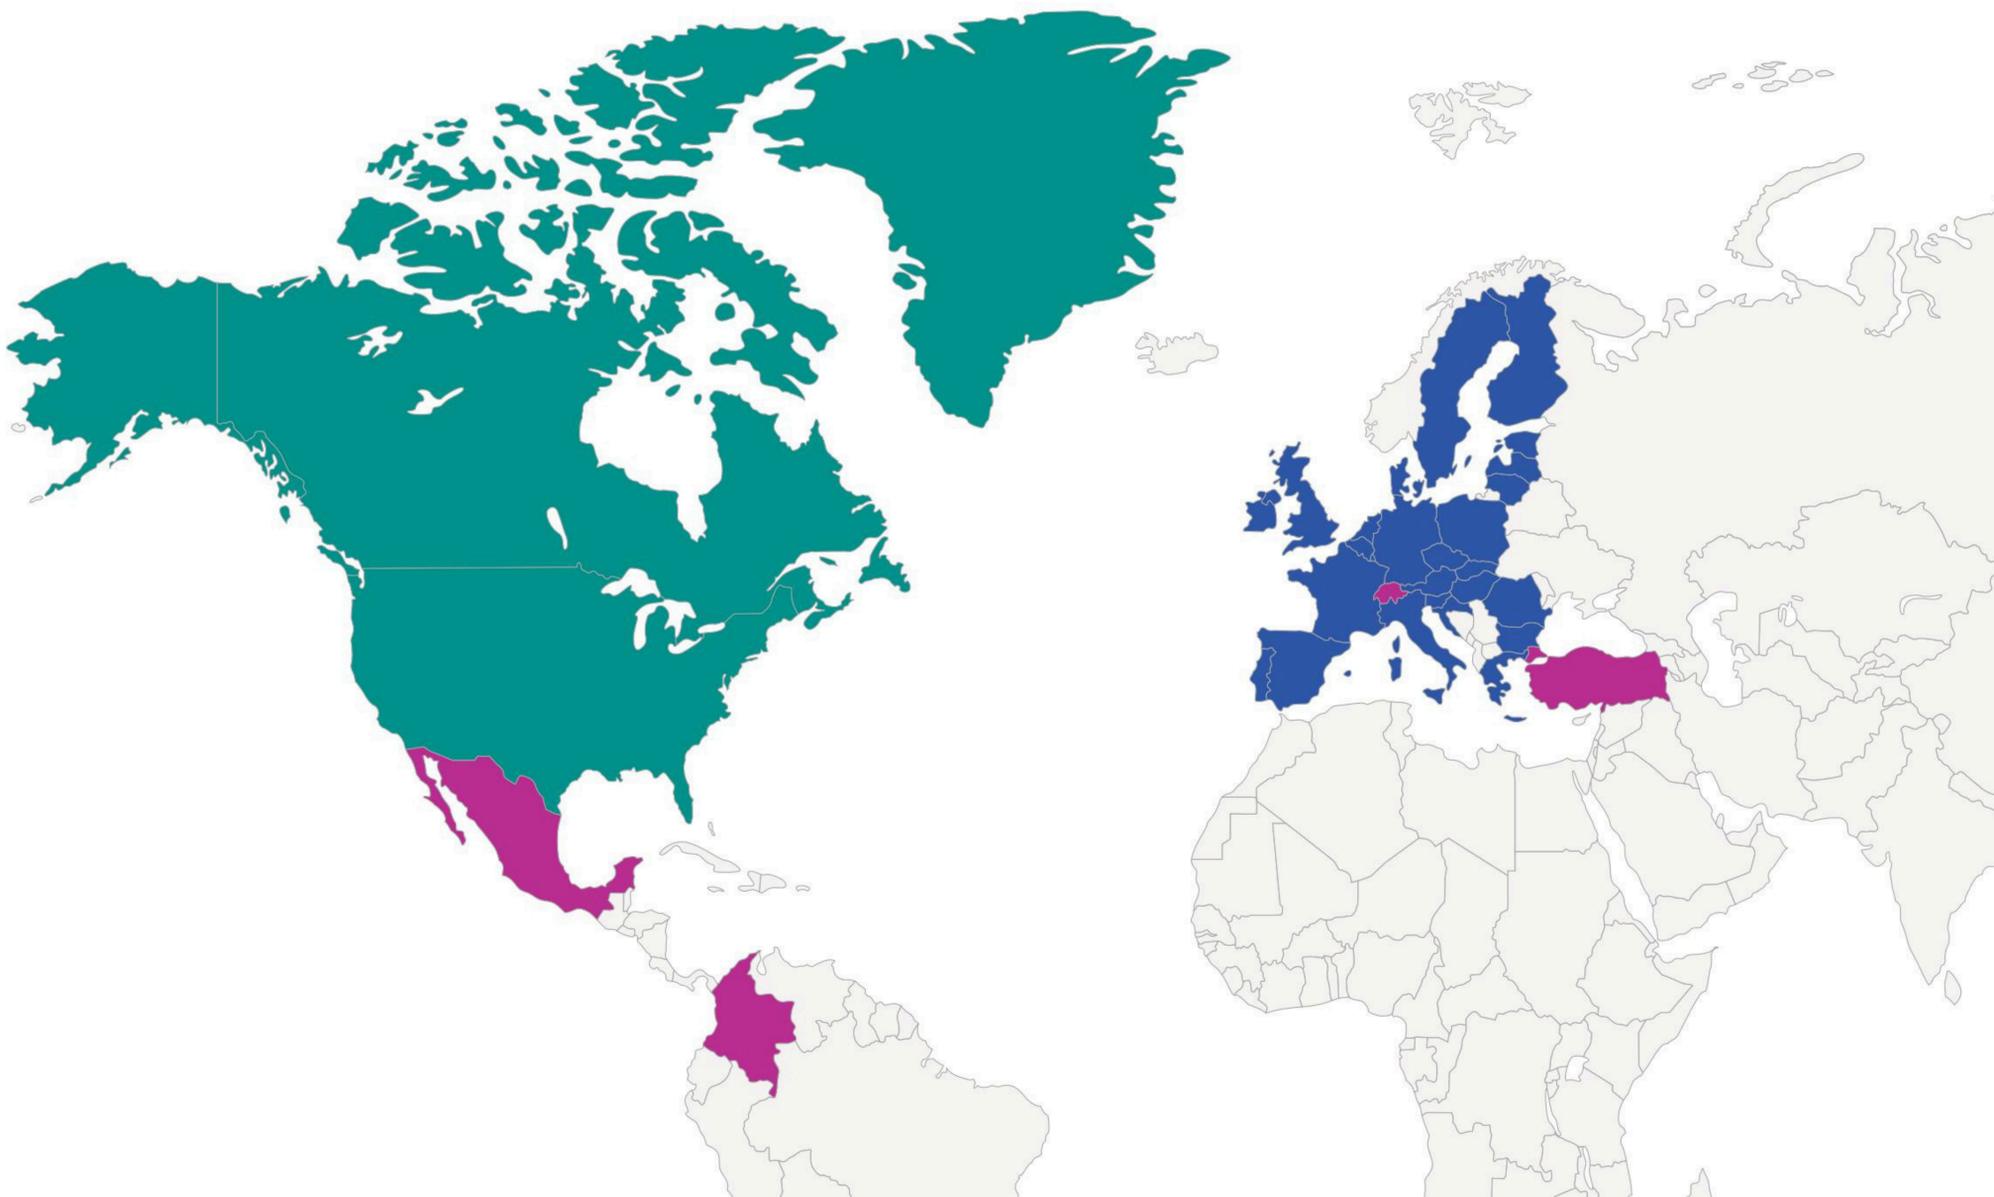

And that's what is happening. Super Patch has seen hundreds of thousands of real-life success stories and growing demand for our patches. We know we are transforming the health and wellness industry.

WHAT'S HOLDING YOU BACK?

Almost everyone has a personal wellness struggle. Every day, millions of people deal with low energy, pain or discomfort, poor sleep, and trouble focusing.

The traditional fixes like caffeine, energy drinks, over-the-counter pain meds and stimulants are short-term, plus, they can have side-effects and can contain unhealthy chemicals.

A SIMPLE, NATURAL ALTERNATIVE

Super Patch doesn't use any drugs or chemicals. There's nothing to be absorbed into the body and no electrical impulses either. Drug, additive, and chemical free. Made from Medical-grade 3M material.

You put on a patch, and it triggers your brain and body to naturally enhance your energy, concentration, sleep cycle, recovery, and more. 13 different patches for a variety of benefits.

Unlike supplements or medications, it works by activating your body's natural potential through neural stimulation. And the best part: YOU are the generator of your own inner potential.

VIBROTACTILE TECHNOLOGY THE POWER OF TOUCH

It's called "VTT" for short and it's seriously complex.

Super Patch uses VTT by imprinting intricate patterns on each patch. A patch's pattern is designed to use skin contact to send signals to your brain. The signals make the desired neuro-function work better and your body responds by performing at its best.

Think of it like "Braille For Your Brain" - the patch pattern is "read" inside of you to help you function better.

-  More energy
-  Better pain management
-  Longer, deeper sleep
-  Greater athletic performance
-  Lower stress
-  Enhanced balance & stability
-  Better focus & concentration
-  Better mood
-  Immune support
-  So much more!!
